

Serial No.: 09/282,764

Docket No.: GTE-99-808

**Amendments to the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

Claims 1-5 (cancelled).

Claim 6 (currently amended) A method executed in a computer system for targeting advertisements comprising:

defining at least one category as containing documents that may be retrieved;

associating at least one supercategory with multiple categories including said at least one category by mapping the multiple categories to the at least one supercategory;

associating an advertisement with at least one of said supercategories, the advertisement being separate from the documents contained in the at least one category;

determining at least one term associated with a user search query;

determining a first of said at least one supercategory based on at least one term of said user search query and said multiple categories of the at least one supercategory; and

displaying an advertisement associated with said first supercategory.

*Serial No.: 09/282,764**Docket No.: GTE-99-808*

Claim 7 (previously presented) The method of Claim 6, wherein there is more than one supercategory and said first supercategory is a most relevant supercategory corresponding to said user search query, and the method further including:

ranking said more than one supercategory to determine said first supercategory.

91  
Claim 8 (previously presented) The method of Claim 6, further comprising:

determining additional terms related to terms included in said at least one supercategory; and

wherein said determining a first supercategory also takes into account said additional terms.

Claim 9 (previously presented) The method of Claim 6, wherein said documents include business listing information.

Claim 10 (previously presented) The method of Claim 6, further including:

ranking said documents in accordance with terms occurring in said user search query and terms occurring in said multiple categories of the first supercategory.

*Serial No.: 09/282,764**Docket No.: GTE-99-808*

Claim 11 (previously presented) The method of Claim 6, wherein said computer system includes an on-line query tool.

Claim 12 (previously presented) The method of Claim 6, wherein said determining a first of said at least one supercategory in accordance with said user search query includes:

determining a geographic area that is a search term included in said user search query.

Claim 13 (previously presented) The method of Claim 6, further including:

forming a banner ad term list, each element in said banner ad term list including terms of said first supercategory and terms of said at least one category associated with said first supercategory;

wherein said banner ad term list is managed by a dedicated server included in said computer system.

Claim 14 (previously presented) The method of Claim 13, wherein each element of said banner ad term list includes additional data about one of said documents associated with said each element.

Claim 15 (currently amended) A computer program product for displaying advertisements comprising:

*Serial No.: 09/282,764**Docket No.: GTE-99-808*

machine executable code for determining at least one category as  
containing documents that may be retrieved;

machine executable code for associating at least one supercategory with  
multiple categories including said at least one supercategory by mapping the  
multiple categories to the at least one supercategory;

machine executable code for associating an advertisement with at least  
one of said supercategories, the advertisement being separate from the  
documents contained in the at least one category;

machine executable code for determining at least one term associated  
with a user search query;

machine executable code for determining a first of said at least one  
supercategory based on at least one term of said user search query and said  
multiple categories of the at least one supercategory; and

machine executable code for displaying an advertisement associated with  
said first supercategory.

Claim 16 (previously presented) The computer program product of Claim  
15, wherein there is more than one supercategory and said first supercategory is  
a most relevant supercategory corresponding to said user search query, and the  
computer program product further includes:

machine executable code for ranking said more than one supercategory to  
determine said first supercategory.

*Serial No.: 09/282,764**Docket No.: GTE-99-808*

Claim 17 (previously presented) The computer program product of Claim 15, further comprising:

machine executable code for determining additional terms related to terms included in said at least one supercategory; and

wherein said determining a first supercategory also takes into account said additional terms.

61  
Claim 18 (previously presented) The computer program of Claim 15, wherein said documents include business listing information.

Claim 19 (previously presented) The computer program product of Claim 15, further including:

machine executable code for ranking said documents in accordance with terms occurring in said user search query and terms occurring in said multiple categories of the first supercategory.

Claim 20 (previously presented) The computer program product of Claim 15, further including an on-line query tool.

Claim 21 (previously presented) The computer program product of Claim 15, wherein said machine executable code for determining a first of said at least one supercategory in accordance with said user search query includes:

*Serial No.: 09/282,764**Docket No.: GTE-99-808*

machine executable code for determining a geographic area that is a search term included in said user search query.

Claim 22 (previously presented) The computer program product of Claim 15, further including:

machine executable code for forming a banner ad term list, each element in said banner ad term list including terms of said first supercategory and terms of said at least one category associated with said first supercategory;

wherein said banner ad term list is managed by a dedicated server included in said computer system.

Claim 23 (previously presented) The computer program product of Claim 22, wherein each element of said banner ad term list includes additional data about one of said documents associated with said each element.

Claim 24 (currently amended) An apparatus for displaying advertisements comprising:

means for defining at least one category as containing documents that may be retrieved;

means for associating at least one supercategory with multiple categories by mapping the categories to the at least one supercategory;

Serial No.: 09/282,764

Docket No.: GTE-99-808

means for associating an advertisement with at least one of said supercategories, the advertisement being separate from the documents contained in the at least one category;

means for determining at least one term associated with a user search query;

E' means for determining a first of said at least one supercategory based on at least one term of said user search query and said multiple categories of the at least one supercategory; and

means for displaying an advertisement associated with said first supercategory.

Claim 25 (currently amended) ~~The computer program product of Claim 24~~ The apparatus of claim 24, wherein there is more than one supercategory and said first supercategory is a most relevant supercategory corresponding to said user search query, and said apparatus further includes:

means for ranking said more than one supercategory to determine said first supercategory.
